

404th Knowledge Seekers Workshop

Key Words

October 28, 2021

Note: Summary has not been checked by KF. Please listen to original recording and read English Transcription after the post. (Summary by KF Brazil)

KF recruiting experts in their fields for factories; Suitcase of knowledge for travel in space; VEU converts cells to energy embedded in STM and transports to other VEU reverses process; Plasmatic encapsulation of STP; Job of religions over ; Call for NASA and defense technology experts to join KF; Christ raised the dead - EU work same way; Every cell has a soul - central control connected to STM; Mohammad respected Zoroaster & Mitra protected Iran; Mitra returns manifest in both soul & physical dimensions first time- new D for Unicose; Mitra's gift to humanity able to manifest in both D soul & physicality; Creator suffered when Mitra took physicality - couldn't follow - now we can manifest in both D; New cycle starts across U; How to balance soul and physicality > expectations > turmoil > imbalance find out emotions and reason; KS have not understood power of plasma; "walk on top of MaGrav" ; system to tap into Knowledge of the Universe; M tunnel effect - taught ; DC condition characteristic of M field; Mr. Keshe shares about not letting oneself to be abused - thought you were the guilty one ; UFOs souls returning and fresh souls being born from earth - light leaving earth; No to breathing method; Detachment is needed ; meet souls in dreams; About Mozhan training ;

KEY-WORDS :

New space flight systems are a collection of all the teachings - past years of the KF
The process of all the teachings was to bring us to this point
The point is to prepare the man to take flight from this planet
It's like preparing a suitcase - only this time the suitcase is knowledge
When we travel - we don't need to take clothing - no means to digest food
The emotion of missing home will not exist - as we are now at home across U
The suitcase of knowledge is becoming bigger and bigger
It becomes larger through knowledge of man - and many Knowledge Seekers (KS)
Man finds out man in the space - he cannot take the usual things for travel
The only thing man can take are his memories - leave behind double life
The suitcase of knowledge is nearly complete - what is the next step
We have shown you the space crafts you will take
Many KS are in the step of - "on their way to the airport" - point of departure
Many people will join us very rapidly - because they want to be a passenger
They buy the last minute ticket to get on
The journey of man in the deep space has just started
Put the last pieces of what you love in the D of memory and emotion in suitcase

Clothes in suitcase may disappear on arrival - different MG field
The fields of clothes will be there - but not tangible
We'll yearn to feel the D of physicality - like on earth - but will not be there
The touch - emotion - the feeding will have different strength - different meaning
We as KS and as a human race - have started a new journey
The suitcase is nearly packed - only the last pieces need to be added
Many of you will be disappointed - nothing in suitcase of physical D of the man
When you enter the craft - see no controls - you understand you are the controller
If you are too attached to the earth - you will go nowhere
Because the STP and the STM are not ready to take that journey.
Many will be disappointed - holding on to D of physicality
(The new) address doesn't exist in your emotion - your address is earth
In some cases - man can change his emotion - but many will not travel
Some will receive a refund for their ticket - as their soul not ready to travel
What you want - is not what your soul wants, "I am not ready yet"
Need time to mature - maybe in the time of children and grandchildren
Mankind has to be ready in both D of soul and STP
Traveling in physicality - encounter M field hurricanes - tumbling
How will the leaders tell their people - the time of change has come
When you enter flight EU - most of physical D won't exist - what will happen
If you decide to create children in space - they will carry DNA of man's life on earth
If man returns to earth - the organs will be recreated again - like womb of mother
Once you taste it (go through it) - you will feel and understand the truth about it
Teach the conversion of cell to energy - collectively become the STM to travel
The VEU (will) convert the cell to energy
Fields of the system - bring the physicality into the soul
The fields of the (system) squeeze soul's D of physicality into the same point
STM as a whole - leaves D of physicality - both merged in a controlled way
In the other system - reverse process - STM will open up D of physicality
Science tried to move an atom - haven't realized an atom has a soul
Purpose of VEU is to move STM as a package to desired destination
KF has tested this process - it is part of the new flight system
KF certified by authorities for space aircraft manufacturing
Assembled systems will be certified to travel within new D of this planet
Beyond this planet we have no authorities - except the authority of the Creator
Up to 80 km under Austrian rule - above that we have no rules
Above 80 km rule referred to those who think they control space - few hundred km
Beyond few hundred km - rule of the U - KF works in that dimension
You decide which mode of transportation you want to use
Squeeze the fields of U - that it makes your soul receive enough - to leave physicality
Squeezing fields - exactly like death - STM releases itself from physicality
STM matures when it has received enough to be able to take the trip
STM created enough connection with every cell - take what it needs for flight
Process is like juice extractor - essence is juice - leftover pulp is body at death
Man's life at death - true essence gone into juice - which you take with you
All soul energies of every cell - given to the STM - it will leave the body

EU does this process - matures the STM (instantly) - that it can leave physicality
In present knowledge of man - there is a leftover at death - (called a "dead body")
In T&T you take everything with you - (you don't leave a dead body behind)
We make the cage to become the carrier (of the STM)
We encapsulate the STM in the plasma of the fields of the system.
Allow STM manifest in another D - STM manifests another physicality
This plasmatic encapsulation will be perfectly understood in the coming time.
When you don't have a system - encapsulation can take you to a destination
As long as you keep the "plasma capsule" - you can return back to a position
You can transport yourself - where there isn't a system (to receive you)
Took 8 years to get here - 8,000 years to teach the rest - immense knowledge
If man detaches from physicality - he will learn quicker
Through Birth of Mitra - Soul & Physicality become one - only reason
Man will be able to travel in any shape or form - across span of U
By birth of Mitra - new generation of man will have that capability
It's part of the gift to humanity
Mother of Creation - blow a new knowledge of life - to whole Universe
(Learning) how to serve - will create a new condition of life anywhere in the U
These new EU are just stepping stones to the next D of the knowledge for man.
EU will be beyond imagination of many of you - because man is too physical
Every religious leader can deny existence and presence of "Methi" (Messiah)
When are they going to stop (denying) - who is going to be the Methi
Along with the knowledge - they themselves become irrelevant to the equation
Knowledge given today - makes religious leaders irrelevant - Popes and Ayatollahs
How long do they want to be leaders - their term already expired - (the One is here)
Let them struggle in physicality - but disperse the knowledge in the correct way
The path chosen to bring man to this position - belief in Creator and creation
When you can transmute yourself - nobody can tell you how Christ raised the dead
Christ raised the dead - exactly how the machine works - elevated the soul
How can Vatican explain this - understanding the process - means end Christianity
Now every Moslem can go to Moon - see it is not cut
We brought the religions to guide man to this step - so he understands the rest easier
Term of religions is over - man has knowledge to understand truth about Creator
Does man need a Messenger - already received knowledge - understood totality
Opposition will come from religious leaders - have to take hats off - normal man
(Understanding the knowledge) no one can lie to no one
The abuse of the man - through process of being the "guardians" is over
We don't need permission - we deliver knowledge - man puts aside old dogmas
Understand what is written here - you understand how Christ rose a man from dead
You all have the knowledge of Christ - But does that make you the Christ?
In essence - it's the same right across all the religions
By knowledge and understanding - no man will follow any religion

Man will follow principle of Mitra - Think Good - Speak Good - Act Good
Following Mitra's principle - you can do no wrong - you are a citizen of the U
You are the gift to the rest of the creation

As your knowledge becomes their knowledge
They appreciate and respect in what you shared
That's how you become the givers
Let them create as much mayhem as they like - the truth shall not change
The knowledge shall not die
Only a few days left for religious leaders - essence of Creator within the man
Every man is a Methi of his own soul and his physicality
As we hear in the administrations - they do not know how to handle KF
New flight EU - have created mayhem from many governments
KS traveling span of planet - without anyone claiming to be leaders
Transmutation of VEU - gives every soul opportunity to travel in both D
If you don't carry essence of purity you can't travel in the EU
STP knows you are a criminal and cannot leave - you cannot hide it
You are still attached to the physicality - to continue with the criminality.
Not all KS will grasp teaching - those in background will understand - take shape
Two years ago we showed the illusion of EU - now it's a reality
We taught for years in advance - now we show the system
The new system coming up is more advanced than this one
This is the great grandfather of the new system to come in
We create the conditions for man to suffer less in the D of physicality
What we show as a spaceship - takes the D of physicality and reality
The flight EU allows 4 souls collectively to be carried within the system
Somebody asked - who is going to be the captain?
(No captain) - the giver of - the one who serves the others
Suitcase of the STM walks inside - suitcase of the physicality stays outside
In flight system - no room for the knowledge - as we know it
In most cases when we arrive, there is no knowledge.
Carry only - understanding of the emotion - through totality of life of man
Enter as a STM - totality of knowledge of ancestors gathered in STP
We carry knowledge together as "Man" - little difference in understanding of souls
We carry the common denominator of the gift of the creation within us
Mankind will mature very quickly
Even these spacecrafts - are just a tool for the maturity of the man
For the maturity of the STM - understanding of the totality of the creation
We have taught everything - that the man needs
We'll see how we can bring this new D into play - how we can do
How feeble we've been - not understanding for thousands of years
If you look inside the flight system - everything has been there
Even within a flight - man can mature to be as part of - all technologies
Flight EU is part of collective set of knowledge - given him in past thousands years
Mankind will be citizens of the Universe
Now maybe many of you will mature - to point of understanding the totality
If not - we have thousands of years to go yet
Maybe great grandchildren - understand totality of the knowledge of the creation
If you carried the "baked beans" - dissolve on point of arrival
Now you understand - choose your flights method

VEU - travel with soul

New flight EU - option of physicality - might mature during flight - soul D

Man can only travel in any of these systems - if matured to totality of the truth

Be careful how you choose to travel - physicality - D of energies - memories

The rest is in your hands - for those who understand.

Those here listening for certain governments - warn the "Methi" is here

To Iranian leadership - do not block knowledge - only block your own elevation

Same message to Vatican - Tel Aviv - Buddhists and rest - (open to change)

The time of the maturity of the soul has arrived

None of you have the capability - power - to stop the change - we have set out

Time for maturity to show itself - that man becomes part of Universal Community

QUESTIONS

The 3 Books 1, 2, 3 - now they become as best sellers in categories

The knowledge is getting known by people outside the KF

The KF has now become a space organization

KF SSI has become an institute - soon will be an independent university

You all can become part of this university - part of the research

Step by step we have come a long way

Reactors might look the same - but will perform totally different directions

In Rome Conference - message from Pope - "the father loves you"

Vatican is fully aware of what is to come - so are other world religious leaders

Time of religious leaders delaying freedom of STM - has come to an end

It does not matter how you jump (avoid) it - nothing to jump on anymore

We opened the mind of man to the possibility - he has endeavored to reach it

Q: How may we enjoy the physicality with peace?

Let physicality be peaceful - become peaceful and it becomes peace - very simple

We usually lock ourselves away from people who might harm us

But as we mature - we'll find out there is another way

Mature your soul - that you elevate their soul

Mature your soul - then they don't harm you or others

Approach it opposite way - instead of running - Give - then becomes peaceful

(Gives example) - those who caused us pain - we let go of them

They made their lives - by creating suffering to confirm their own existence

By letting go we found peace - peace and love we never knew - has come together

We elevated their souls by letting them go

By not allowing ourselves to be abused any longer - we found peace and joy

I have never known such a peaceful life for 30 years

It's the man who has to choose

When we choose for peace of mind and soul - we achieve it

It's us who decides for ourselves - nobody else.

Always elevate those who you think are the cause of your suffering - they'll mature

I'll explain how by elevating their soul's - they ended their own pain and suffering

(Be) there to elevate - to give - the rest will come on its own

KF has started recruiting for expansion of commercial activities

We need KS with technical expertise for factories and institutions
 KS in background who work in weapons defense technology in America
 Reach out to nuclear physicists who are standing outside Los Alamos
 KF opening doors to scientists - divert defense T - into space T
 Massive unemployment in advanced T in US
 KF EU made freely available to American Veterans - psychological wounds
 Stop Veterans suffering from the atrocities of the US government
 Hand of peace from Iranian nation to Americans
 First step - KF agenda - peaceful brotherhood of man
 Open massive investments - to transfer T to North America
 KF is independent nation - free to deliver its T to bring peace
 Iranian nuclear space T - used to improve the lives of American veterans
 Do not expect "hiccups" - welcome those who have suffered by mistakes of leaders
 Same offer to other centers as we expand out across America
 KF bears all the costs - (totally free to American veterans)
 Hand of peace outside of "5plus1"
 We build bridges of peace through citizens - governments will follow
 Same offer to Chinese and Russians - if negotiate directly with KF
 European Space Agency Space program will be left out
 Europeans need to be brought to justice for misconduct
 Join KF - apply for job - bring peace to humanity
 Thank John of AZ - bridge to US government
 KF becoming registered space organization - independent university
 We need experts from those who understand and have been part of the space T
 Call for Iranians who work at NASA - Chinese and Russians - join Linz
 Those who have access to American administration - space race as One Nation
 Nuclear was just a stepping stone for access to knowledge of creation
 Qualified people from NASA - defense design - join us
 Help create a peace technology - man can never go to war again
 KF is on recruiting path - head hunters are out to space agencies
 Together we'll develop this T very rapidly - one way or another

Submit application at info@keshe.foundation

Q: Is the STM is like the mother - and STP is like the baby - in the womb?

K- More or less, yes, if that makes you to understand it.

Every cell of the man has soul, and operates through that operation

Every cell of the man has fields - which has lead to its manifestation

Every cell has a structure of the control of the physicality - we call it RNA and DNA

Collective physical operation of the fields - is the STP - gives us the physical man

The soul of each cell has a central control (in STP) - which is connected to the STM

Soul of cells have different operations both collectively - and in singularity

There is a central control (all cells) - and individual central control - in physicality

One control has physical D - body - it has to understand environmental condition

One controls remotely from STM - every cell knows what the other cells are doing

Q: Arabic Islamic literature -angel "Mitratush"/ "Metatron"- how to relate to this?

K- I do not know.

**Mohammad fought with his uncle and cousins - not to touch Iran
They already believe in the God we are trying to bring - through Mitra
After Mohammad's death - greed lead them to takeover Zoroastrian Iran
Islam of the Iranian nation is an enforced religion, which then became fanaticism
Mohammad himself believed in the, what we call, belief of Zoroaster and Mitra
Fanaticism in Iran today - carried on with abuse of Mohammad's descendents
Fanaticism - cause of many problems - in "the Iranian nation of Zoroaster."
Islam has second place in heart of every Iranian - first is Zoroaster
Time of enforcing Islam by guns & blood - has come to an end
Leadership of Iran believes more in Zoroaster - Iranian root cannot be broken
Through this we understand how Islam has taken shape around world
Mohammad respected Zoroastrians as religion - believe in Creator long before us
This is how name of Mitra has taken shape in Islamic literature
Iranian parliament - Zoroastrians take priority
Zoroastrians - true Iranians - true blood of Mitra - the way they live
Most religions came from Mithraism**

Q: What should we expect from friends and family in the D of emotion, as we land next to them using our soul?

See if they get closer to you - or they reject you - then you get your answer

Q: Tell us more about the birth of Mitra on the 21st of December. Is it like the first baby out of the Body EU, or is it the birth of a woman, or something else?

Traditionally 21st of December is the birth of Mitra -for thousands of years

This is the longest nigh - man walked out of ignorance of his Creator

The Soul of the Mitra - in the soul of the lover of the Creator

Mitra in Christianity is Eve - the Creator is Adam - (conversion of concepts)

The love of the Creator - is the apple - giving unconditionally

The Creator tasted love - which Mitra brought with itself - first time on earth

Mitra choose earth - because its life had the purpose of love - diversity - beauty

She promised to return when the peace comes to earth

Mitra has been collecting the beauty in the whole Unicose

Mitra will return on her birthday to give life to a new dimension

The apple is the symbol of the new life she brings (fruit of her gatherings)

In so many ways, the time for peace has come and then we shall see

In the future we'll disclose this in much more detail.

Mitra is the dimension of the love of the Creator

But now we'll have it in both D -in the coming time man will understand

A new cycle of life will start across the U - in both dimensions (soul & physicality)

The Creator suffered - when Mitra took the shape in physicality - as He could not

Now life can be lived in both D - physicality and the Soul

We'll explain this in the due course, as man matures.

These systems can grow an amputated leg or arm

Your soul and physicality grow in same direction and D

Open heart surgery - your heart will find its position balance - time you were born

Have to understand and let go of physicality - then STM can take (over)

Worries with attachments - difficult to recover from any position
Systems developed to elevate the soul - at same time allow physicality to decide
Systems with built in reactors - more powerful
Taken 2 years for KS to understand advancement in T - gradually we achieve
Q: How can we create balance between the soul and physicality, and the STM, to stop this war and get peace of the soul?

It's within you. Nobody else can do that except you. What do you expect?

(From) expectations comes turmoil - which creates imbalance

It doesn't need somebody else to disturb you from being peaceful

Your own thoughts & emotions are the main sources of your disruption

(These are the causes for you) not being peaceful with yourself

Find out what those emotions are - and the reasons behind them

Then find peace with it - which means understand it

R: I think at one point you said, the secret is in your brain.

K- Which is your soul inside it, and STP within it.

R: I am just noticing on the picture of the HEU, that appears to be a MaGrav units on the head and foot of each end of this HEU, is that correct?

K- Yes. You KS have not understood the power of the plasma

You have not reached the point of understanding the work of the plasma

Does not matter, what matter you put in-between - you need to create a connection

Connection between soul & physicality - able to influence one or other

You ignored it - we don't - we work with it - because that is why we built it

John in AZ got very near to it - and then he walked away from it

I thought he was going to breakthrough - he went in center of it

""the only thing he didn't do, was he didn't walk on top of it.""

R: I can see that, thank you for that. Interesting.

K- Everything in the KF is interesting.

Even after 8 years it still gets more and more interesting every week

We gave the knowledge in small doses - now you are addicted to it

True - once addicted you don't want to go back to ordinary life - looks pale

Introduce system allows you to see - Knowledge of U - not necessarily understand

Then we'll see what the next step available to man is

First make a communication system - then tap into Knowledge of U

You need this system - as you become men of U

You need to communicate with the other members of the U Community

Even how to be in touch with - "the ?? Alpha men" in other dimensions in the U

It's a T - which is a bit too soon, too early for us to release.

R: There's an article that suggests there's a M tunnel surrounding our solar system

Scientists & astronomers - just discovering about M fields that permeate the U

They are starting to map out a web like structure of these fields

They are starting to acknowledge there are M fields in space

You have been saying this since day 1 and Book 1

Scientist says, that it's all connected through these M fields - so we are getting there

K- Been doing this for thousands of years - a few more won't make much difference
A lot of things become very amazingly open - in the knowledge of the fields
There is a process of how M fields connect - relate - accumulate in 1 D or another
These magnetic balls are very much like galaxies and U connected to each other
The spherical magnets take the shape of a G spiral - in the center is a gap
It's very hard to fill that center gap - doesn't matter how you fit it
Thee gap is created mainly by the D of the physicality
Because of its existence - it enforces this D of physicality to take shape
If we move the other 2 bullet magnets around - fields of spiral remain exactly same
Bullet magnets in-between spiral- show conversion light to matter - matter to energy
We don't have the system to see the slowing down of the fields
We can see it with the M field eye - not with the naked eye - not trained
Bullets - like flight systems - always M field surrounding any dynamic structure
It's not that the solar system is in a tunnel.
G fields of solar system absorb fields in both D - create M field tunnel
So when you look at it on both ends - you create this tunneling effect
Earth is not in a tunnel - but creates a M field tunnel around itself - field interaction
Created out of interactions of fields with each other - within solar system & galaxy
It's not that there is a tunnel and the solar system moves in it
The tunnel is created out of the interaction of every single magnet
Tunnel comes from interactions out of both ends - and all the other systems
The scientists have not understood yet - that we are not walking through a tunnel
The tunnel is created out of interaction of all the different fields
If you take the solar system out of this point - nothing exists - there is no tunnel
This is the secret to the new flight systems that (NASA) is setting up
NASA with Boeing have been working on this tunneling for years - for cars
I tried to work with this group years ago - but I couldn't explain to them
Create the tunnel by placing magnets in position of next interaction
Edison tried to create this with transmission towers placed every few kilometers
In the future many of our roads and flight systems will follow this process
Because we go back to the DC condition - which the Edison was trying
The DC condition is part of the characteristics of the M field
And the tunneling effect will be (created) this way
The M field of the ball in front and one in back - dictates the middle ones position
The middle ball has very little say in where it goes - decided by the other 2 balls
Because the 2 balls in sharing their fields - through - dictate the middle ones position
This is part of the travel system that will be used in cities - in the future
Using MG field systems - impossible to have crashes - travel at high speeds

(keep this question together)

Q: I have come to realize when one lets go of the physical D, one becomes lonely, relationship with friends, family, and prospective of everything changes. I enjoy where I am, so why does this happen?

K- I don't know.

R: You mentioned one time, that when we, get a vision of the next D, letting go of the physical D, detachment, then it would be such, an enjoyment, or a vision that the physical D would seem meaningless to us?

K- What do you mean?

R: The beauty of the U, that can be seen when we let go of the physical vision of it. People have this fear of letting go of the physical D, they think they'll be lonely, or they'll lose their relationships. But perhaps by letting go of the physical D, we become more clear on another D of existence. .. perhaps there are beauties ..

K- Maybe if we let something go - other things will manifest - we didn't see before.

I had this in the past year - when you let the abuse go

Then you realize - how much you allowed it to happen

Do you need it? (to let yourself be abused)

The worse part of it is - the abuser (made up) lies to abuse

This is very much part of the psychological behavior of any kind of abuse

The victim becomes - what you call - the "guilty party"

(You thought you were the guilty one) - then you find out - you were just a victim

You don't realize it until you are out of it - what has been going on

Because you condition yourself (that you were the guilty one - but were not)

This will happen to people who start using EU - see clearly - elevate the soul

Q: Are some of these pulsing orb UFOs seen in infrared cameras, actually beings who have reached the point of being able to travel through their soul?

K- Some of them are fresh souls - just left the body - free from physicality

Now we have systems to be able to see them as light

R: Start seeing shooting stars that are going out into space - instead of coming

K- Yes, many times, when the soul is free, yes.

The purpose of creation of this planet - (souls) to become a seed for star - in U

Imagine how fast you travel to another part of the Unicose

Your soul has been given a position to be filled - start of a Universe

Light is inevitable when your plasmatic fields travel within fields of earth - dynamic

Lot of lights in sky being reported on Youtube

Somebody asked - is that the promise of the return to earth of the souls?

Yes, some of them are coming back - the whole family comes back together

My great grandmother - a single woman - produced couple hundred offspring's

It's the same (process of multiplication of life) in the depth of the U

Souls are coming back for the celebration on Earth

These are not necessarily UFOs - they are the souls (returning)

These souls could have become the center of another star

They know it is the time - the soul of the star is here.

It's because it (the soul) came from the STM - Mankind has got a lot to learn yet.

Q: Should we work with the breathing method in order to connect with the STP with the STM, and allow it to dissolve in fields for transmutation? In order to reach the center of earth for example?

K- No

Your brain - lung - and skin are part of the same source

Q: More interactions between the royal families and commoners, especially with the story on the Japanese princess abandoning her royal status. Have we reached their souls?

This has been going on for centuries - not just because of our teaching

Q: Is there Indium in EU as base plate - it was discussed for the Star Formation?

K- We don't have such a thing, I think in the lab.

Q: What would you say to beautiful KS who can't put the 2 proverbial screws together, (2:24). yet want to work for the KF, although they weren't chosen for direct employment. How would you suggest they best continue their energies to support KF work. Just leave it to the souls to decide? You know the emotion of rejection or feeling bad, not being chosen for these ??, or is it just our own immaturity in understanding the totality. We understand we all serve in different ways and want to help?

It's not a rejection - we all serve in different ways

Q: How can KF help people who are suffering from natural disasters like tsunami. Is there any cooperation between KF and any government regarding to this?

K- We are building it up, yes.

**Flight units can create an environment of safety with energy of food - not physical
Create a dome - release fields of energy transfer, pain killer- anti-inflammatory
These are not anymore "might be" - these are in the EU**

All we do is allow the extension of the fields

**We can even help in forest fires - if they are accidental - but not naturally occurring
(We don't interfere when the earth goes through its own cycles - we call disasters)**

We can divert hurricanes back to sea - limit some of the huge damages

The same process can be used to create and sustain life in the space.

We have not even started - process of the space and uses of the knowledge of the U

We have no more use or need for military

R: What about Coast Guard for example - checking for drug smugglers?

K- Yes, we can do.

I used to help British government with the narcotics menace

With this T - we can stop the growth (of drugs) at the source (where they are grown)

There are ways that we can stop even the plant to grow

It's very easy for elements, which are harmful to man to be stopped at the source

British Monarch supported by drug trafficking - nobody could stop it

Percentage of Middle east drug trade goes to royal family - well recorded

We can stop the growth of these poppies at its source

The only poppy that will be damaged - is the pocket of the Queen of England

There will be no drug traffickers.

There'll be no addicts, because there's no traffickers to deliver.

It only takes a few thousand dollars investment in the new T to do it.

Q: In Mozhans you said that 4 of us could stop a meteorite. Could you go deeper into that, man can do that, because we are spacecraft too?

K- We are energy sources, but it is how do we tune to each other.

It's like a chorus of 4 people singing - tune voice to each other - be one - effective.

If we learn to tune the strength of our souls, then we can do the same - very easy.

Many races in space do this - they don't use spaceship - tune as a group - to travel

Q: You said- we can meet up, make connection to each other in a dream. You said, if in the dream I meet the other Mozhans, to recognize the color of clothes (I saw red shoes), then ask them later if the color was correct. So that's something we can practice, all of us. To meet up in the dream, to increase this connection. Which is the way for us to connect between us?

K- (It takes) detachment.

You are very attached- you want to see the red shoes

You are not interested to see the STM - who carried the red shoe

So you are still physically attached. And that's the problem, part.

This is what will grab man for a long time - to be stuck to this planet

Try to see the color of the STM - not color of shoe - then you'll understand

Q: Yes, definitely you are super right about not being able to detach. There is this fear, that definitely, is an issue for me, because lack of trust, fear is lack of trust?

K- It all depends, each one of us has that problem different

This is the problem all of us have

But we have to find (it out) - we have to see what is - our problem

R: Are you going to teach another Mozhan class?

K- I don't have the time. That was a special time and place we did we brought

I took 7 students - gave 2 years of my life to teach them

The students could not understand - some became murders

I taught Mozhans for 12 weeks - some stayed - some went

Mozhans still have one part of the training to be completed

At the moment our commitment is to flight - take man into space

All these systems have to be synchronized perfectly -

Q: .. from Macedonia .. in the Bible St. Paul had a dream to go to Macedonia to spread Christianity I would like you to come to Macedonia to spread your teachings .. I believe in your T.

Our teaching reaches everyone - doesn't matter where or how

Please keep on teaching unconditionally, and hopefully everything else will do its job

ENGLISH TRANSCRIPTION

(:07). K- ... In the past 2 weeks the KF has launched the new space flight systems. The new space flight system brings into operation a collection of all the teachings of the past years of the KF. We are a space program, we are a space based program. We are a

structure to bring a new T, a new understanding, .. work into the structure of the travel, does not matter in what sense. (Hi Rick you are back ...) The process of all the teachings in how to Nano (N) coat, how to makes Gans's, how to use the fields, how we make Cup 1, 2, and all the teachings, (:10). with the energy and fields of MaGravs, was to bring us to this point.

The point of the journey, preparing the man to take flight from this planet. It's like when you go to travel you start weeks before making sure all the ?? , all the things you need for the long journey is there, you don't miss anything. Everything is in the suitcase, but this time the suitcase, is the suitcase of knowledge. We added step by step, we brought more and more people to understand, what is in this suitcase of travel. The suitcase of knowledge for space is very different, than the suitcase of the man traveling the planet earth. We came to understand we don't need no clothing, .. we have no means of digesting food, to take the memories of the best foods and sweets from our home, to where we are going, while we are traveling, and be there. We came to understand that the emotion of missing home will not exist, as it is part of us, as we are home now across the U. Then the suitcase became bigger and bigger. It became larger through the knowledge of man, .. through understanding of many, many Knowledge Seekers (KS). In a way, when you go as a team, to travel as a group, to travel, everyone brings what they like, .. brings a taste of their interest, book, videos or whatever. You'll find out man in the space cannot take these things. (:12). The only thing he'll take with us is the memory of the man within the dimension (D) of the physicality, and the memory of the Soul of the Man (STM) in the D of the U. We'll leave the double life.

What is the next step, now that the suitcase of the knowledge of the man to take the first journey is nearly complete. The only thing is, now we have shown you the crafts, that will take you. Now we are on a journey from home to the D of the airport, or the train station, to get that flight, to get that journey to start. Many of you KS are in that step. Many people will join us very rapidly, because they want to be a passenger. They buy the last minute tickets to get on. But this journey will not end here. The journey starts here for man. This journey of man in the deep space has just started. What we are asking you, is to put the last pieces of, whatever you love, you care in the D of memory and emotion, in the suitcase of the knowledge of the man for space.

Many of your clothes, which you might take in your suitcase, on the point of arrival, due to its MG field will not exist. You say, "I know I left that shirt, .. that toy, .. that food in the suitcase," but where is it. That toy, that shirt, that food, had a physical D in the GM field of the earth, with the emotion of the physicality of the man. (:14). In the D of new air, a new D of the position and field strength, is like a sugar in a hot water. It's there, but not tangible. We carry the essence of the taste of the sugar in the water, as the memories of our lives on earth. Many of us will feel this D of the travel. Many of us will yearn to feel the D of physicality of it. We yearn, we love, the way we loved on the earth, we yearn to be touched, but will not exist. The touch, the feeding, the emotion, will have a different strength, will have a different meaning, will have a new D.

We as KS, and as a human race, we have started a new journey. The suitcase nearly packed, and the last pieces of what is needed to be added to it, is getting there, that we can have it with us when we go. But .. many of you will be disappointed, that at the point of arrival, there is nothing in that suitcase of the physical D of the man.

In so many ways, as you will see, when you enter, and we explained in the teaching of last week. You will see no steering wheel. You will see no controls. You will understand, that you become the controller of it, position and D. If you are so attached to earth, you will go nowhere. (:16). You hear in ?? "sorry the train is at the station." Because the Soul of the Physicality (STP) and the STM are not ready to take that journey.

Many of you will go, but you'll be disappointed. You love to be the passengers of the U, but the D of the physicality, and hold on the physical D, will keep you. In a way, it's the old song, " there is no such address" the address doesn't exist in your emotion, as the address for you is earth, and you are too physical to understand. Would the mankind change in time, and the emotion change in time, in some cases, yes. But attachment to physicality, will not allow many people, will travel. As you've been on the website of the KF and some of you have already shown interest to be the passengers of the flights to Moon, on the 6th of June, you'll find out, you'll receive a refund on your ticket, as your soul is not prepared to take the journey of the physicality with itself. What you want is not what your soul wants, "I am not ready yet," I need time to mature, maybe, not in my time and D, but in the time and D of my children, my grandchildren. The attachment to .. emotion in understanding is too deep. In talking to some KS, and some people who are trying to understand the knowledge, (:18). of the KF, in the past week I have been explaining in a very simple way. Mankind has to be ready in both the D of the soul, and the STP, and then the man is ready, as totality to take in the oceans of the fields of the U. There'll be no difference in traveling the depth of the U. You'll have a turmoil, you'll have the M field flows, you have the hurricanes of the fields from the explosion of the star, you'll be tumbled, you'll roll, you'll find out if you have chosen the craft version, you are in the D of the physicality, and the man will go.

As I said to the ambassadors and the people who are working in the direction of understanding the T, how are your leaders going to tell your nationals and your followers, that the time has come. The time of change for us to understand the next level of understanding has come. Where most of physical D will never exist, when you enter these units, there is no food, what is going to happen to your stomach? Still you might create children of space in the coming time. They will have in their DNA, the process of creating a stomach, creating a digestive system, (:20). creating of cleaning, creating system to reject what it doesn't need, but in the D of the flights, the universal systems, there is no such thing, but still stays in the background in the RNA and DNA, of the STM and the STP, that if man returns to earth in due course, all shall be created again, all the functioning again, all be ready to go, very much the way we do in the womb of the mother, in the time of the growth within the structure of the womb of the mother. We are in another spaceship, spaceship of the life of the mother. In the coming time, many of you will have problems to understand it, but once you taste it, you come to feel the truth about it.

In the coming weeks, .. months, we start teaching the process of the conversion of the cell of the man to energy, and collectively to become the STM to be able to travel.

Rick show the VEU ..

In the VEU this is about what to happen, in the D of the existence, .. understanding. ... (:22).

In this system, the STM will be somewhere here. The physicality .. will take shape and be somewhere here. The structure of the fields of this system are set to bring the D of the physicality into the position of the soul. At the same time, the fields of the structure are set to create the squeezing of the fields of the physicality, or the soul's D of the physicality into the same point.

What do you get? The STM as a whole, being able to leave the D of physicality, as both have been brought together in a very controlled way. What will you be left with, is nothing. (:24). At this point, as you are energy, I can transfer you into another system. I can take you into another system, by the D of the flight and manifest your soul. And then set the system into reverse, where the STM will open up the D of physicality, and the STP will grasp the opening of the physical D of the man.

In the past, in the present science, they tried to move an atom, they tried to move something somewhere, but they haven't realized, that the atom has a soul. If the scientists can move the soul of the atom, the soul of totality , and this is the purpose of the VEU. Where you are open to the both D of the fields of the U, and what is there, that the STM in the D of his own package, will move to the position of the desire destination. In the KF we have developed such a line of communication, such a transfer of the energy. We have tested it, and it is part of the new flight system. (:26).

As now the KF Austria has been given to become what we call, space aircraft manufacturing for space development, by the authorities. We are there to show the system, we are there to run the prototypes, and invite the government officials, and people, leaders in the space T to be present, when the tests are done. When the systems are assembled, that it becomes certified, for the man to travel within the new D of this planet, but beyond it, we have no authorities, except the authority of the Creator.

As the Austrian officials said, up to 80 km is under our rule, above that, we have no rules. We go to the others who think they control the space. But those who control the space have the limitation of a few hundred km more, and beyond that, is the rule of the U. KF works in that D. Many of you will go through the physical transportation and transmutation (T&T), many of you will go through the energy T&T. It's for you to decide, which mode of transportation you like to take and be part of. How you will squeeze the fields of the U, that makes your soul to receive enough to leave the physical D. Then how we squeeze the fields of the physical D of the soul to be added to, the D of the STM, that matures, exactly the way, at the point of death, (:28) of the physical life of you at the moment, to be able to release itself. Maturity of the time comes from where the

STM has received enough to be able to take that trip. Has created enough connection with every cell of the body of the man, to take everything it needs, for it to take flight.

As I said in other teachings many years ago, now you might understand, is these machines we produce, are like, exactly like a juice extractor. You put the carrot, and you put the grapes, and you put the apple in a juice extractor, once the extractor has squeezed the juice out of it, that they are all together, you are left, with the leftover, which is squeezed out of the machine. This is your life at the moment. At the point of death, what is left is what that juice extractor has rejected, because the true essence of the field has gone into the juice, into the liquid, which you take. In essence of the STM, when all the soul energies of the every cell of the man, is given to the STM, then the new soul, the new what we call, totality, (:30). will leave the body of the man, and leave the body of the man, that, that wasted thing, as we had with the juice extractor. No more and no less. Man has made a system to show the process of the creation, but he never understood.

Now if you look the new EU, are in that process, to release all the souls of every cell of the body .. to be available to the STM, from the soul of the D of the physicality of the cells, that the STM receives enough, matures enough, that he can release himself from the D of physicality. In the present knowledge, in the present D of life of the man, there is a leftover, which is the body of the man, what we call, the muck, the body, the leftover.

In the process of T&T you take everything, as embedded within the soul of the man, the STP, and the soul of the physical material, with us, as part of the D of the T&T. In a way, we make, instead of the STM to be on its own, we make the cage, to become the carrier. We encapsulate the STM in the plasma of the fields of the system. We allow it to manifest itself in another D, and then, when we take the plasmatic encapsulation away, the physicality of the man will manifest itself in the presence of the time and position, (:32). on earth, or on the other position and system's in the U.

This plasmatic encapsulation will be perfectly understood in the coming time, when you don't have one of these systems with you on the sun, or on the Moon, Jupiter or on another position in the U, where you want, you like to reach, but there is no system . The encapsulation, which is created, will take you there, will deliver you to a position, will create you a D of life, and allow you to manifest yourself in whatever shape or form, according to the physical plasmatic structure of the environment, as a new creature, in that position or D. As long as you can keep the D of the, what we call, plasma capsule, you can return back to the position. If we can make the same systems as we are doing in Austria, and we're sending these systems across the planet, you don't want to come back to Austria, you go to New York, Tehran, anywhere else you feel, where the systems are, or you can divert your systems, if you become good enough, .. to move the source to the point. .. we start slowly, opening the knowledge, that how you move, (:34). how you do things.

It took us 8 years to bring you to this position, and it will take 8,000 years to teach the rest, because the knowledge is so vast, the knowledge is so immense, that the knowledge of the man, unless man let's the, what I call, attachment to physicality go, will take him a

long, long time. This is the reason, and only reason, that the creation of the soul and physicality, through the birth of Mitra, will become one. Then the man will have the full possibility of both D, that he can travel the span of the U in any shape or form.

Understanding and creation of the new generation of the children of man, will have that capability, as it comes with the birth of Mitra. It's part of the gift to humanity, as the mother of the creation, will create, will blow a new knowledge of life, to the whole of the U. There shall no D, where and how, as the D of how to serve, how to be there to serve, that creates a new condition of life anywhere in the U.

These new EU are just stepping stones to the next D of the knowledge for man. The new EU, the new structure of the production of the systems, (:36). will be beyond imagination of many of you. Because man is too physical. As I said to the representative of Iranian government in past few days, every religious leader can deny the existence and the presence of Methi. When are they going to stop, and who is going to be the Methi. As they decide to the benefit of their pockets, or the truth, that they'll find out, with the knowledge come, the knowledge dispersed, themselves have become irrelevant to the whole equation of the creation and the knowledge of the prophet of the Creator.

In a way, the knowledge given, in what I explained today, makes the presence of Ayatollah K of Iran, the Pope, and the rest, irrelevant to the knowledge of the creation. How long these people would like to attach themselves to be the leaders, to be who they know is the right, has already expired. Let them struggle in the D of physicality, but with the knowledge, and the disperse of the knowledge, the correct way. We'll find out, that the belief in the path, of what was chosen to bring man to this position, will come to be understood to be, the belief in the Creator and the creation. As I said, when you understand how you can transmute, when you can manifest yourself in D of physicality, how you can elevate your soul, then there is nobody who can tell you, how Christ raised the dead. He raised the soul of the dead and the physicality followed. In a way, he gave from his soul, (:38). exactly like this machine, that soul elevated, in the D of elevating the physical soul. Now explain to us, in Vatican, what that means. This means the understanding of the process, and the end of Christianity.

Explain to the leaders of Iran, be it A K and the rest of the Ayatollahs in power, what is "shama ??" now that every Moslem has access to go on the Moon, and see the moon is not cut. Then we understand the purpose of the religions, which we brought, to guide man to this step, that he can understand the rest easier.

The term and the condition of the religions are over, because every single man has the knowledge, .. has the capability to understand the knowledge, that does not allow no Ayatollah, no Pope, no Rabbi to lie to them about who is, who they are, and what is the truth about the Creator. If the knowledge of the Creator is in the hand of every man, does he need a Messenger to tell him, as he has already received the message, understood the totality. This is what is, and many of you will come to understand in the coming weeks and months, the opposition to KF will come from the religious leaders, as they have to take their turbans off, and the holy hats, and become another soul, with the knowledge that they themselves, become part of the process of creation. No one can lie to no one.

(:40). The process of the what we call, the guardians, and those who thought the man was supposed to be a man, to understand his souls. and abuse the souls in that process, is over. As I said, to the delegation of Ayatollah K, we don't need no permission. We deliver the knowledge and the man will put aside the old dogmas.

In so many ways, your knowledge, understanding what is on the screen, makes you to understand how the Christ rose a man, from dead, and the rest of what has come, and how you can transmute, understanding knowledge across the U. So in fact, you all have the knowledge of the Christ, and does it make you the Christ? In essence it's the same right across all the religions. As I said, by knowledge and understanding, no man will follow no religion, except the principle of the knowledge and the religion of the Mitra, do good, act good, and think good. In that process you can do no wrong. In that process you are a citizen of the U. You are the gift to the rest of the creation, as your knowledge becomes their knowledge, and they appreciate and respect in what you shared. That's how you become the givers.

Let them create as much mayhem as they like. The truth shall not change. The knowledge shall not die. In so many ways, (:42). there are few days, very short time, left of all the religious leaders and name of the religions, as the man comes to understand the essence of the Creator is within him. Every man is a Methi of his own soul and his physicality. As we hear, that we see in the administrations, they do not know how to handle KF. Since last week, in the past 2 weeks, we have put the new flight EU, we have created mayhem for many governments. How to handle the KS of the KF in the next few months traveling in the span of the planet, and the U, and the galaxies, and without us claiming to be the leaders. If we look at the structure of the VEU in transmutation. If we look at the structure of the new flight system in transportation, we have given every soul, every man the opportunity to travel in both D, or as he understands and matures, from one to the other.

If you enter the EU, the VEU and you want to go from A to B, but you don't carry that essence of purity, you will go nowhere. We open the box, you are still standing there. And what do you say, "the system doesn't work, and there is something wrong with it." The only thing wrong with it, is that your STP knows you're a criminal and cannot leave. Then you can hide it in any shape or form you like. (:44). You are still attached to the physicality to continue with the criminality. In so many ways, the teaching in a very slow steps, like in this simple picture will open a new knowledge, .. D, not all the KS will grasp it. But those who are in the background will understand it, and then it will take shape, from D of pictures to reality.

Rick would you like to play new video of the EU, that we see the progress, we see the change. Two years ago we showed you the illusion, the pictures of what we were doing. What will the EU will do, and how will they look. Now when you come into the EC you see the reality. Next time you come in 2 or 3 months, you'll see the more advanced version of it. Different structures different, different systems, but in essence, man will choose. The VEU will stand next to the, what we call the old EU, and then you

understand the difference. You want to travel in the D of the soul, or you want to travel in the D of physicality. (:46).

Go ahead please, plays video ..

K- There is a VEU in the EC. If you remember we used to, and we showed a demonstration of how this system would look. Now this is a physical system in front of you. We taught for years in advance, and now we show the system. And the new system, (:48). coming up is more advanced then this one. In a way, this is the great grandfather of the new system to come in, due to development and understanding of more of the T. The same shall be with the other systems, which the KF will bring out and put in operation, for advancement of understanding, and for creation of the conditions for man to suffer less in the D of physicality. What we show as a spaceship, becomes and takes the D of physicality and reality, and we have to understand it.

If you even go to the side where you see the chair. If you look the EU uses one chair, the new advancement in knowledge and space T, allows 4 souls collectively to be carried within the system, both in both D of the physical, and in D of STM. As somebody asked, what's going to happen with, who is going to take charge? Who is going to be the captain? This goes back to the teaching, where I said before, who will try to be giver of? I have enough time to get to Mars, you need to go to the Moon, your wish is my command, I am here to serve you. And then if I get to Mars, (:50). and find for me ?? to decide. Then you understand the new processes, the new teaching, the new systems, is all to bring man to that position of the suitcase, that the man can stand outside any of these units and decide.

I am sure many of you will feel shame, even walking in with a suitcase, as your suitcase might not even exist at a point of arrival. You'll come to the flight system and you'll say to yourself, I have to let the physicality go, as the suitcase of man stays outside, and the suitcase of the STM will walk inside. The knowledge, the memory, the expansion of the thoughts, will take shape itself in the flight system, where there is no room for the knowledge, as we know, in most cases when we arrive, there is no knowledge. Man cannot carry anything, but himself, except understanding of the emotion, through the totality of the life of the man on this planet. When you enter these units as a STM, as we have gathered in the STP, the totality of the knowledge of all of our ancestors, we walk in with all knowledge of the creation on this planet. When you enter, as all of us carry most of that knowledge together, you'll find out, there is very little difference between understanding of the souls, (:52). who shall be the captain, and who will be the first to go where they want to. You'll understand we carry the common denominator of the gift of the creation within us, and mankind will mature very quickly, to understand that even these spacecrafts, are just a tool for the maturity of the man. For the maturity of the STM, for the maturity of the understanding of the totality of the creation.

In so many cases of teaching, we have taught everything, that the man needs. Then for many of us, we'll see how we can bring this new D into play, and how we can do.

In understanding this is, and more and more we, realizing the difference between the VEU, and T&T, and the new flight system, will change our D of thinking, in knowing how feeble we've been, in not understanding the totality for thousands of years. Everything has been there. If you look inside the flight system, (:54). you'll understand even within a flight, man can mature to be as part of, to be in possession of, and to be as totality of all the technologies put together. In so many ways, mankind needs to enter the point of maturity, .. understand and chose which, and what he likes to take flight, and would he like suddenly in the middle, to have both, the D of the STP, and D of the STM, free from, that mankind could mature to a new D. Mankind will become part of the understanding of the totality, where the new EU flight systems, are a collective set, of all the new knowledge's and the systems we have given you in past thousands of years. As you'll be the citizens of the U, for mankind, who has just matured to understand a little bit more about this.

Now maybe, many of you will come to mature to point of understanding the totality. And if not, we have thousands of years to go yet. Maybe your children and great grandchildren, will come to understand this, and with it, they'll come to understand the totality of the knowledge of the creation. Now we see the collective knowledge, (:56). and as I told you before, in which suitcase, and with what suitcase, you will want to enter any of these 2 machines. Don't forget, the VEU is very small, what would you hold onto, your mobile phone, or the ring from the mother and the grandmother, when you go through T&T of the VEU, and would you carry the suitcase with you into the EU flight, as you know the point of arrival, it would be very funny, if you carried the tin of the baked beans, as is the tradition, breakfast of the every Englishmen, and when you arrive in that D, the material used for the tin has become part of its illusive energy of its space and time, and what is left, is nothing but beans, in your suitcase, and even if that suitcase still has a physical D of the physicality. Now you understand, choose your flights method. Use the D of the soul, and go through the D of the VEU, or go with the new flight system, and still have an option to go through the process of what we call, physicality and maybe in that time you mature to go through the process of the soul too.

But understand one point, (:58). man can only travel in any of these systems, when man has matured the totality, of understanding the truth about the creation and the Creator. I hope today's teaching brought you a little bit closer to understand how you travel, .. be, and if very careful .. about the suitcase you want to carry. The suitcase of man, with the D of physicality, or the suitcase of the soul and D of the energies of the thoughts and memories of the time and place and D. The rest is yours, the rest is in your hands, and the rest is for those who understand. I am sure by the end of this teaching, those who are sitting here, or those who report to certain governments, to say, you see ?? he is the Methi, and now it is the end of your job. You had better do something.

My advice to the Iranian leadership is very simple, the time for separation of the STM and physicality of the man is over, and it is the responsibility of the religious leaders being the president A K of Iran, to open the truth about the beginning of the new cycle for man in a D of creation, and be the step stone for them to mature, and not block the

knowledge, as we can take you to the new D, that you can only block your souls from elevation. The same goes to Vatican and the messengers who are in the background sitting here, and the same to the rabbis ?? in Tel Aviv, and the same with the Chinese Buddhists, and the rest. The time of the maturity of the soul has arrived, (1:00). and none of you have the capability and the power to stop the change, that we have set out. Mankind has matured, and it is the time for that maturity to show itself, that the man become part of the U Community, and become free from the village of the earth, and the views of so many people in the name of the Creator.
Thank you Rick . go for commercial break .

>> **Proofed to here** >>

>> **BREAK** >> 404 KSW Oct 28, 2021 video (1:14). (1:16).

K- Going back into what we just saw and some of the things shown in the video. .. the 3 Books 1, 2, 3 now they become as best sellers in category, and under their publications. The KF teams have launched these books, they have become some of the best sellers in many of the categories. The knowledge is getting known by people outside the KF. Gradually in the coming weeks you'll see the hardcover of these books in different stores, book stores across especially UK and Canada. We make sure as many people have access to the knowledge, and they can reach to understand the knowledge.

When you look at the, what has been more or less progressive developments of this T, it's been on the back of, step by step development, .. showing, .. to understand, and some people grasp some part of it, .. the other part of it. But now collectively many of the KS are heading towards one direction. As now the KF has become a space organization (1:18). and as KF SSI, has become an institute, independent university very soon, you all can become part of this university, .. part of the research, and add to the knowledge, and learn more about the work of the U. You've seen we have come step by step, a long way, and we have seen step by step we have taken shape in different directions and D. We've seen how we use the PI but and all of it is according to the level of our understanding.

One reactor could look the same, but perform totally different directions and D of the knowledge. It's nice to see programs like this. When we go back to one scene on this video, is where we showed the first conference in Rome with the world ambassadors. In that conference is one piece left in the memory of many of you. One is one is handing over the MaGrav units to the world ambassadors. And one ?/ long parted, in middle end, when the delegation from his Eminence the Pope from the Vatican, approaches to say good-bye, they had to leave, you hear in the microphone, "Papa Amora" , which means the father loves you. We understand the Vatican is fully aware, what is about to come,

and the other world religious leaders. The Vatican Pope, is a ?? man, who is a layman on the street. (1:20).

Now we understand the depth of the knowledge, and the fact how much, the world religious leaders are delaying the time for the freedom of the STM, and that time has come to an end. As we said, it does not matter how you jump it, there is nothing to jump on anymore. It's nice to see these things, it brings up very good memories of how things went, and how things started, and how collectively man over centuries have achieved to get where he is now, because we have opened the mind of the man, there is such a thing possible, he has made to endeavor to reach that possibility.

Q: ... How may we enjoy the physicality with peace?

K- Easy, be peaceful physicality, become peaceful, and it becomes peace, very simple. Keep away, we usually lock ourselves away from people who might harm us, but as we mature, we'll find out there is another way. Mature your soul, that you elevate their soul, that they don't become to harm you, or to public. Work it the opposite way, instead of running, give, (1:22). and by giving, everything becomes peaceful.

As I said, many times in the past few months, those who were cause of the pain and suffering for us, we let them go. Because that is how they got their lives, by creating that suffering, that they could confirm they exist. Now by letting go, we have found peace. Never knew, love, care, peace, all has come together, because we elevated theirs, by letting them go. By allowing ourselves not to be abused. And that brings peace. That brings a lot of joy. I have never known such a peaceful life for 30 years. Because by keeping turmoil, they confirm their continuous existence. It's the man who has to choose, when we choose for a peace of mind, and a peace of soul, we achieve it. It's us who decides, nobody else. Always elevate those who think, they are the cause of your suffering, and they'll mature to it. Very soon I'll explain what this has done, to those who have been cause of our pain. very soon I'll explain how by elevating their souls, they ended up their own pain and suffering of the others. You will understand, but it needs time.

Any other question.

There to elevate, there to give, the rest will come on its own. (1:24).

These as KS, we go back out to explain. KF in Austria, in China, in Iran, and in Mexico and in next couple of months in AZ, have started recruiting KS and non-KS, for expansion of our, what I call, commercial activities and spread of the knowledge through proof of the T. We need KS who have the technical knowledge, who might have the technical knowledge, to join in the factories, and into developments, and maybe some research in these centers. The number of people especially in Tehran, in Austria, and China, and in Mexico will rise to hundreds of people. If you are KS with expertise, not just because you are a KS, try to join us if you want, in setting up and development of these new factories, and these institutions which are set to spread and bring out the new T.

If you are working, and you are in the background, we know many of you are, with weapon defense T in America. (1:26). Those of you who work for NASA and Lockheed Martin and remain out. Reach out to the nuclear physicists who are standing outside Los Alamos, to join the KF in new research centers in Austria, and in AZ. We know many advanced technologists and scientists in the space development in the European Community looking for a job. KF is opening its door to these scientists, to divert what we call, defense T into space T. We know of a massive unemployment in advanced T in US. In the coming weeks, in AZ KF will open the first series of EU to be shown in AZ and to be used. As we announced in the American teaching, 48 EU will be delivered to AZ in coming weeks, and a quarter of these are there as a gift to American forces who have come back from battles with a psychological, and physical damages to the brain and eye. Freely available to the American citizens of .. military background.

The veterans of wars in Middle east, in Afghanistan, in Iraq, and the rest, you have a free access to use of these, to see your health back, to see, to gain, and to stop the suffering from what you have carried from years, from these, what we call, the atrocities of your government. (1:28). A quarter of the KF EU in AZ with acceptance of our partners, has become freely available to American veterans for their full recovery. This is the hand of peace from the Iranian nation to the Americans. To the American administration and beyond the boundary of the Iranian government and Iranian leadership. This is not a gesture, but this is a first step, KF and the Iranian nation to open a dialog, and with it bring peace to both nations. We work beyond the limitation of the Iranian government and Iranian leadership, as they have their own agenda. The KF agenda is peace, peaceful brotherhood of man, in understanding and sharing T.

With the opening of the EU in AZ, we open the D and directions of our investment, through our arm of our stock exchange group of companies, which will allow the massive investment into US, and the transfer of T to Americans, and the North American state. KF is an independent nation, offers, and has the freedom to deliver its T to anywhere, which can bring peace between men and nations. In the coming weeks, through the veteran newspapers and magazines, which we work with, the people in that structure will announce a free, welcoming use of, Iranian nuclear space T, by the American veterans to improve their lives. (1:30). We do not expect any, what I call, hiccups and we welcome all those who have suffered long enough for the mistakes of their leaders, to recover for many. As we expand more and more centers across America, the same offer will be open, only for the American veterans to become and to recover, as a gift from the Iranian nation and the KF. We bear all the costs. This is the hand of peace outside the "5plus1" between the Iranian nation citizens, and the American government and the rest. This will be demonstrated freely in AZ. As we see more veterans gain the structure of life, and become the normal citizens, we build the bridges of peace, through its citizens, and then the governments follow. As I said, the whole structure of the KF has to be, to create a condition of peace.

The same T is at the reach of the Chinese, and Russian administration if they decide to negotiate with the KF on a direct basis. We deliver the same to all. As we deliver the space flight systems in December of this year for test and trial, we bring all the nations to

be available, except European Community Space program, till the situation in European Space Agency with bunch of what we call, misconduct people is sorted, and they have been submitted to, what we call, (1:32). Den Hag European court of justice for their actions. So the European space agency will stay out of the, any what we call, work of the KF till the situation .. has sorted out, that we can deal with a peaceful people.

In so many ways, apply for a job, join the KF and develop, or work to develop new T that brings peace to humanity. I would like to thank John, who has made everything possible, to be a bridge between KF Iran, and KF, and maybe government of US in background, that it brings us that peaceful level, that step to be able to make us a peaceful nation, as One Nation. As I said, KF space agency till now, is becoming a registered independent university, and the same the KF space what we call, factories and manufacturing, become a space organizations for flights, and the rest. We need experts from those who understand and been part of the space T. The Iranians who work at NASA, and for those Americans who work in NASA propulsion lab, to join the new space university in Linz, Austria. To work together, to bring the knowledge in the level, of understanding the totality. The same offer goes to the Chinese, and Russian space T and knowledge. (1:34).

In so many ways, those of you who have access to American administration in different ways, and listen, the race for space as One Nation has opened up through the operation, work, and teaching of the knowledge of the KF. We show this step by step to build trust, and to find out there is a bigger and much stronger T beyond nuclear. Where the nuclear was a stepping stone for us to understand how to access the knowledge of the creation. We welcome you, if you are looking for a job, especially from NASA, especially from American space agencies and aircraft industry, specially those who are expert in design of the defense systems, in American manufacturing weapon T. Join us to create a peace T, and where we can deliver through new T a condition that no man can ever go to war.

KF is on the recruiting path, and I have approached organizations, which will go head hunting, within NASA, .. within Lockheed Martin, Chinese and Russian space agencies, excluding European organizations. With it we'll develop this T very rapidly, in one way or the other. For those people of the space, who believe in the use of the space for peaceful application and implication.
Any other question . (1:36).

Maybe before I finish , those of you who want to know where to apply for the job, go at info@keshe.foundation and you can submit your application forms or requests there.

Q: ... trying to understand the STP and STM. She says, in order to understand STP and STM, is it like as the baby in the womb of his mother, the STM is like the mother, and the STP is like the baby?

K- More or less, yes, if that makes you to understand it. Every cell of the man has soul, and operates through that operation. Every cell of the man has fields, which has lead to its manifestation, and has a structure of the control of the physicality, we call it RNA and DNA. That collective physical D operation of the fields, we call the STP, which gives us the D of physical man. By conversion of the fields into matter state level.

At a higher order, where even at the center of the soul, physical soul of the man, physical structure of the man, there is the soul central control for that cell. Sits what we call the soul of the cell, which is connected to the STM. (1:38). Collectively have a different operation, and in singularity, they work within the structure of the physical soul and the soul of, the cell of the man too. So we have a control, central control, and we have individual central control in the D of physicality. One has a physical D, which is the body we touch, and it has to understand the environmental condition of the fields, and one which is controlling remotely, all access to all, that every cell knows, what the other cells are doing within it, which we call the STM. I hope I managed to answer you.

Q: ... In Arabic Islamic literature they name an angle, "Mitratush", or "Metatron", how can we relate to this?

K- I do not know. You got to understand something very important, especially, especially to the Islamic world, During the reign of Mohammad, bless his name, Mohammad fought his uncles and his cousins, that they never touch Iran. He said to them, that they believe in God, what we are trying to bring, long before us, (1:40). through Mitra and Ahura Mazda. As long as Mohammad, bless his name, was alive, Arabs never crossed the line to Iran.

Islamic world crossed the line into the Zoroastrian world of Iran when Mohammad died, and the greed for the wealth in the nation brought them to slaughter the Iranians. Islam of the Iranian nation is an enforced religion, which then became fanaticism. Mohammad himself believed in the, what we call, belief of Zoroaster and Mitra. What we see today in Iran, in the fanaticism, is for those who have carried on with the abuse of the descendents of Mohammad, not the true belief of Mohammad himself. That fanaticism has been the cause of many, many problems for what we call, "the Iranian nation of Zoroaster." We are first Zoroastrians, we are first believers in Mitra, and Islam has a second place in the heart of every Iranian. But enforced, the wrong way, especially in the recent past, by guns, threats, and blood, by those who have taken power, and that has come to an end. Ayatollah of Iran, and Raisi, believe in Zoroaster, (1:42). and Mitra, more than they do in Islam, because they are first Iranian. When you go to Tehran in the school of, what is known as "?? ??" Ayatollah K has paid for the school to be furnished to the best, as his belief in Zoroaster is stronger than his belief in Islam. As it is the root of us, as Iranians, and that cannot be broken.

This is what has to be understood, and then we understand where the Islam has taken shape, the way it has across this planet. During the Mohammad's time, Zoroastrians were respected as a religion, because as Mohammad said, they believe long in the Creator before we do. How can we go and teach them something more. Then you see the name of Mitra in different shape, appears in Islamic literature, as Mohammad accepted Zoroaster and Mitra as a religion and respected the same. In the parliament of today in Iran, Zoroastrians have a member and his thoughts, takes priority more than anybody when the rule ?? is passed. Because they are the true Iranians. They are the true blood of Mitra, what has been, and the way they live. Then when you ask about Mitra in different Islamic

culture, you have to understand how, the respect came from Mohammad .. for the culture and belief, as most of the religions come from Mithraism. (1:44).

Any other question

Q: Ghana ... Thank you beautiful KS souls .. What should we expect from friends and family in the D of emotion, as we land next to them using our soul?

K- See how closer they take you, or how further they reject you. Then you get your answer. But why they keep you in that distance of emotion through the soul. Maybe they don't understand, or comprehend the strength of the love of your soul. Maybe you need to learn something from them.

Any other question

Q: .. the last teaching you told us, the birth of Mitra on the 21st of December, can you tell us more about this moment of celebration. Like is it the first baby out of the Body EU, or is it the birth of a woman, or something else?

K- 21st of December, (1:46). traditionally is the birth of Mitra, has been for centuries and thousands of years. This is the time of, what we call, the longest night, the birth of Mitra, when the man walked out of the long ignorance of his existence of his Creator, to his creation. The same process will carry on. In the calendar in the life of the man in the D of the belief of the Mitra, existence of the Soul of the Mitra, is existence of .. the soul of the lover of the Creator.

In Christianity and the conversion of the many things in the Old Testament and the others. You call it "Eve," where the Creator is the Adam. And the love of the Creator in a way, tastes of the love, sharing, giving unconditionally, is known in so many ways, as the apple. When the Creator tasted the love, which Mitra brought with itself, for the first time in the D of physicality, on earth. When Mitra choose earth, was because of its beauty, its diversity of life and how life had purpose of love. And a promise was made, that when the peace comes, when she is fully, collected the whole beauty of the U and Unicose, she will return on that day, on her birthday to give life to a new D. Which brings the new life, what you call, the fruit of the, what we call, the apple.

In so many ways, the time for peace has come. (1:48). And then we shall see. In the future we'll disclose in a much more detail about this. But in essence the 21st of April (December) is the birth of Mitra, and has been, and now, Mitra was in the D of the love of the Creator, but now we'll have both in, both D, in the coming time for man to understand. And a new cycle of life will start across the U, in both dimensions. This is where the Creator suffered. Where Mitra took the shape and D of physicality, as He could not. Now one life can live in both D, both in physical and in what we call, the Soul. We'll explain this in the due course, as man matures.

Any other question

Looking at this picture you have on the screen, this systems used in the correct way, can allow every, let's say if you have an amputated leg, to be grown to its full capacity, and capability. If you loose an arm or an leg, and if you put it in this system, where your soul and your physicality both grow in a same direction and D, you can grow your arm or leg.

You need today, open heart surgery, where this system if it is set, by the man of knowledge, (1:50). your heart will find its position and balance, as the time you were born. It is an amazing system and it needs to be understood. You have to be able to understand and be willing to let go of the D of physicality, that the STM can take, when you enter these machines. As long as you have attachments, and worries with attachments, you'll find difficulties to, in a way, to recover from any position. It does not matter what system we throw at you. That's why we developed these systems, to elevate the soul, at the same time the physicality to decide its position and D. As I said before, if you look at this system, and you don't see any reactors sticking out, within the atmosphere and environment of the system, and this is the same with the flight system for the one we sold, originally the Enhancement demonstration system will be allowed, ?? are these part systems, are more powerful than the others. Advancement in T for KS to understand has taken 2 years, but gradually we will achieve it.

Any other question

Q: How can we create balance between the soul and physicality, and the STM, to stop this war and get peace of the soul?

K- That's within you. (1:52). Nobody else can do that except you. What do you expect? What creates the turmoil, that within, creates imbalance? What brings you balance in soul, that there is no turmoil? In a way, what are you satisfied with? What are your expectations? It does not need somebody to disturb you from being peaceful. Your own thoughts, your own emotions are the main sources of your disruption, not being peaceful with yourself. Find out what those emotions are, and the reasons behind it. Then find peace with it, which means understand it.

Any other question.

R: I think at one point you said, the secret is in your brain.

K- Which is your soul inside it, and STP within it.

R: ..I am just noticing on the picture of the HEU, that appears to be a MaGrav units on the head and foot of each end of this HEU, is that correct?

K- Yes. You KS have not understood the power of the plasma (Pl). (1:54). You have not reached the point of understanding the work of the plasma. Does not matter, what matter you put in-between. You need to create a connection, which means the 2 ends of the physical of man, and the soul, and be able to influence one or the other, and the Pl systems within these, MaGrav systems, is what we always said. You ignored it. We don't, we work with it, because that is why we built it.

John in AZ got very near to it, and he walked away from it. I thought he was going to break through. He was going to breakthrough. He made the tables, walked among, went in the center of it. *"the only thing he didn't do, was he didn't walk on top of it."*

R: I can see that, thank you for that. Interesting.

K- Everything in the KF is interesting.

R: It gets more interesting every week it seems. I don't know how that can be, because it seemed totally overwhelming even 8 years ago. It becomes even more interesting each week. Congratulations.

K- We gave you it, .. in small doses, so you never found out, you never realized you've become addicted to it. The knowledge in small bits.

R: It's true in many ways. Once you get addicted to it, (1:56). you don't want to go back to the ordinary life without it. Because everything looks pretty pale in comparison to the P I T.

K- Why. In the next few months, when I have a little bit more time, we'll introduce what we call the system which gives you the Knowledge of Universe. EU which allows you to tap into the Knowledge of U. To see, not necessarily to understand. Then we'll see what will happen, what's the next steps of the development in the knowledge and T. Or the next steps which are available in the U, and available to man. Due to his lack of knowledge. You make what we call the communication system, from one to another, then this system, will allow the man to tap in to the K of U, communicate in that D. You need this system, as you become men of U, you need to understand how to communicate with the other members of the U Community, and how to be in touch with even the ?? alpha men in other dimensions in the U. It's a T, which is a bit too soon, to early for us to release.

R: We were discussing ... about an article about an astronomer's research, that suggests there's a M tunnel that surrounds our solar system ... (1:58). we're finding out the scientists and astronomers are just discovering about the M fields that permeate the U, and they are starting to map out ... the web like structure of these fields. It's pretty big in that sense, they are starting to acknowledge there are M fields in space. This is something you have been going on since day 1, and Book 1. So they are starting to come around, .. to appreciate your perspective, that there are MG fields which we are .. they are suggesting in this article that there are M field tunnels surrounding the solar system and that's part of the M structure that is also from the galaxy, and that it's all connected ... through these M fields. .. so we are getting there .

K- I have been doing this for thousands of years, I think a few more years won't make much difference. It's something I don't know if I have shared it with you before. But when you look at this picture, and understand ..it. A lot of things become very amazingly open in the knowledge of the fields. When where we shared this before. (2:00). and you understand the process of the connection of the fields, in how M fields relate, and how they accumulate in one D or the other.

I am sure you've seen this before. These are magnetic balls. If you look at them, they are very much like universes connected to each other, .. galaxies connected to each other. When you look at the structure, these are .. spherical magnets. This is the shape of .. spiral of the G, and .. if you look, in the center there is a gap. Doesn't matter how you fit it, it is very hard to fill that gap. That gap is mainly created by the D of the physicality, it's very, because of its existence, it enforces this D of physicality to take shape. If you extend the knowledge and understand especially the way we put the magnets, other

magnets within it. We see there is a very interesting point with these magnets, that all the fields, (2:02). exactly the same. It does not matter, which position we put the other 2 magnets.

I can put one of these .. bullet magnets, in-between those magnets, and show the conversion of the light to matter, matter to energy. We don't have the systems to see the slowing down of the fields between the magnets and the bullets, if we put them together. But the naked eye, as we are not trained we don't see, but in the M field eye, will see.

Then these bullets, become very much like the flight system we have, and we see there is always a M field, which surrounds any dynamic structure with both physical, M fields and G field. It's not that the solar system is in a tunnel. The fields of the .. G fields, of the solar system create the absorption of the fields, in both D, and creation of .. the M field tunnel. So when you look at it on both ends, you create this tunneling effect. In fact, earth is your solar system, not in a M field tunnel, but is in a tunnel, which it creates itself, around itself, (2:04). due to interaction of the fields within the galaxy, and it shows that way.

It's created out of the interaction of the fields within the solar system, within the galaxy, with each other. It's not that there is a tunnel, and the solar system moves in it. The interaction of the fields of the solar system, leads to the creation of this tunnel with every single magnet, if you look at it, they all come into it. it doesn't matter which one. In interacting with it, they don't interact with one end, they interact with both ends, and then they lead to the creation, and it's the same, the other end of this field, interacts with the other side of these magnets, other galaxies, other stars, and that tunnel is created out of interaction of the fields, with other systems. This the scientists have not understood yet. We are not walking through a tunnel. This tunnel is created out of the interaction of the fields of the solar system, the fields from the earth, fields from the Mars, fields from others, which make the solar system for us ?? with itself, with other N Pole, S Pole of the other stars and galaxies. If you take the .. solar system out of this point, nothing exists, there is no tunnel. I hope I explained this, and understood.

R: That's very good .. I think that's what she was trying to get to, (2:06). in this article ..

...

K- This is the secret to systems, which will be seen to be setup, by the introduction of their new flight system. NASA in conjunction with Boeing have been working for years, (2:08). on this tunneling, the way we do for aircrafts, but for cars in the cities. The head of this group, is a Chinese guy, it's called the Phantom Project.

But I tried to work with this group years ago, but I couldn't explain to them, is that by placing the magnets, or fields, in a position of the next interaction you can create the tunnel. In a way, goes back to the transmission towers, which Edison was trying to create, every few km you need a transmission tower, to power the line, or add to the line, that you can keep on transmitting. In the future, many of our roads, flight systems will follow this process, because we go back to the DC condition, which the Edison was trying, which is part of the characteristics of the M field, and the tunneling will become this way. In a way, if you look at it, the M field of this one, and the M field of this one, dictates the

position, and everything else, up to this one. The yellow one has very little say in where it goes, the other 2 have. (2:10). Because it's them in sharing the fields through, dictate the position. This is part of the travel system in cities in the future, where you'll use M field system, G fields system, where nobody will crash no one, impossibility to have accident, and we can travel at high speeds in these space tunnels.

Any other question

Q: .. I have come to realize when one lets go of the physical D, one becomes lonely, relationship with friends, family, and prospective of everything changes. I enjoy where I am, so why does this happen?

K- I don't know.

R: ..you mentioned one time .. that when we, (2:12). get a vision of the next D, letting go of the physical D, detachment, then it would be such, an enjoyment, or a vision that the physical D would seem meaningless to us?

K- What do you mean?

R: .. the beauty of the U, that can be seen when we let go of the physical vision of it. People have this fear of letting go of the physical D, that they think they'll be lonely, or they'll lose their relationships .. but perhaps by letting go of the physical D, we become more clear on another D of existence. .. perhaps there are beauties ..

K- Maybe because we let some go, other things become manifest, or we see other parts, which we didn't see before. I had that in past year, year and a half, when you let the abuse go, then you realize how much you allowed it to happen, and do you need it. (Rick interrupts: exactly ..) but the thing is, the worse part of it is, the abuser ?? lied to abuse. And we see this very much with the psychological behavior of any kind of abuse. (2:14). The victim becomes the what you call, the guilty party. You know ?? you are guilty ?? and you have to stand for yourself and find out, that you are just a victim. We never realize it, until we are in it. Then we realize it when we are out of it, what has been going on. Because you condition yourself. You will see a lot of this kind of things, with the people who start using the EU. The insight, the clarity they see things, by elevation of the soul. Very interesting.

Any other question.

Q: .. Are some of these pulsing orb UFOs seen in infrared cameras, actually beings who have reached the point of being able to travel through the soul?

K- Some of them are fresh souls, just left the body. Some of the them are fresh, fresh, souls, just become free from entanglement of the physicality, as they move, and now we have the systems to be able to see them, we see them as light, as they interact with the environment of the area. Some of these, pardon.

R: .. Maybe we'll start to see shooting stars that are going of into space, instead of coming from space to earth off into space. (2:16).

K- Yes, many times, when the soul is free, yes. It shouldn't puzzle us, it's the purpose of the creation on this planet, to become a star, to become a seed, in another D in the U. Can you imagine how fast you travel to that point in another galaxy, and the U, in part of the Unicose to take the position, which you have been given to be filled, by the field strength of, to become the start of a seed of a star, or galaxy, or a U?

It's inevitable when your dynamic PI fields travels within the fields of the earth, which are dynamic. There are a lot of reports we see, people are posting around Youtube, of massive number of lights in the sky, collectively appears. There are huge numbers of these coming from different directions. Somebody asked, is that the promise, of the return of the souls? Yes, some of them are. Come back, the whole family comes back.

Don't forget, I always say, my great grandmother was 1 single woman, about 100 years ago, and the offspring's of that single woman, at the moment, is a couple of hundred. It's the same in the depth of the U. The souls who left in the great grandmas time .. 3 - 400 years ago, (2:18). a few thousand of them. They say, "there is a celebration on the earth, we are going back," and we go as whole together, not just individuals. I said that, in the past that you will see massive amount of lights in the skies of the planet, when the souls come back. It is taking shape, gradually people are reporting, videoing and showing. These are not necessarily UFOs, but these are the souls, these souls could have become the center of another star, but as we can ?? translate, they know it is the time, the soul of the star is here. It's because it came from the STM. Mankind has got a lot to learn yet.

Q: Should we work with the breathing method in order to connect with the STP with the STM, and allow it to dissolve in fields for transmutation? In order to reach the center of earth for example?

K- Nope. You got realize, your lung is part of your brain. Your lung, your skin, and brain is of the same source. You can transmute and transfer a lot of energies through your lung, through the breathing system in different ways, that it benefits your way. It depends then, how you interact with it. It's a different proposition, how you feel with it, and what you think you have achieved.

Any other question. (2:20).

Q: .. More interactions between the royal families and commoners, especially with the story on the Japanese princess abandoning her royal status. Have we reached their souls?

K- This has been going on for centuries, royals who don't see, belonging to, and some of them see, they deserving to be. But more and more monarchs in past centuries have left monarchies, not just because of our teaching, but because they don't see, or they want to be a commoner to be with the common people. Even the kingdom is not worth it, for what the love of a common man, as we have seen in the British history, that's how the Queen became into be the Queen of England, by that abdication. Because of the love of a woman. It was much stronger than a king. This is normal, we see it quite often, in every royal family somewhere. But it's the way how they take it, that's important. ... Harry's interview, and he said, the hardest thing he could not accept was his bodyguards taken away ...

(2:22). Now he had to live among men, the same as a man. Get the same bus .. and the rest of it. .. We've seen with Netanyahu, he brought every hell on every life in the past 12 years ...

The love and respect is not a privilege, it's not a right, it's a desire to give. This is what the problem is with the monarchs.

Any other question.

Q: .. Is there Indium in the EU as a base plate. .. it was discussed ,, for the Star Formation?

K- We don't have such a thing, I think in the lab.

Q: What would you say to beautiful KS who can't put the 2 proverbial screws together, (2:24). yet want to work for the KF, although they weren't chosen for direct employment. How would you suggest they best continue their energies to support KF work. Just leave it to the souls to decide? You know the emotion of rejection or feeling bad, not being chosen for these ??, or is it just our own immaturity in understanding the totality. We understand we all serve in different ways and want to help?

K- In a way, I understand Marks position with the factories setup, people like to be there to do things. We all serve in different ways, we all work in different ways, but we all don't need to be in the factory to put things together. .. we brought people to be as part of the structure of KfM, but they don't fit in. They are beautiful KS, but they don't have, what we call, the confidence. They do their best there, but KF, now that it's becoming an international structure, with whatever we do, we have to be the same, otherwise, any ?? in the structure can be against us in the long run, and the long term. We are looking to employ, .. to bring the knowledge out, but we all can serve in different ways, we all don't need to be there to do it. It's not a rejection, it's just like you want to be a ballerina, which you never trained for it, it's impossible. You'll break your leg, very quick. (2:26). We don't see it as rejection, we see it as part of, as being correct in the rest of our application and development. ?? We have 7 billion people, half of them work ?? as KF, only a few thousand jobs. But being a KS doesn't give ?? We did that 3 -4 years ago, we brought KS in, ?? and they just abused KF, on the name of the KS. At one point we had a 300,000 per month wage bill. We found out half of them just appeared the last day of the month to ... we have videos of them sitting there, "oh, he just pays us for our holiday, oh, he's stupid." Now we become wise. You have to deliver when you take a job. It doesn't mean you are a bad KS, you just, that you don't have a skill for that job, today. Now we becoming a space manufacturing company, aircraft manufacturing company, we have to abide by rules, regulations, and standards of the aircraft or flight industry. We can't being someone who doesn't know which end of the screw driver to drive in. .. We put inspectors in the factory, and we heard, everything has to be perfect. Every staff member has to know how everything is fitted to each other. It's not making a Pad or Pen anymore. (2:28).

Any other question.

Q: .. How can the KF help people who are suffering from natural disasters like tsunami. Is there any cooperation between KF and any government regarding to this?

K- We are building it up, yes. ... and what we see in the coming time when we have the flight units in. We should be able to deliver T on the point of demand. It's not that we deliver the food, and what do you call it, the house, and bricks, but creating an environment of safety with food, is feasible. ...

When you talk about tsunami and being able to support to help, yes we should be able to do. ... In the process of tsunami for example, we can create conditions, (2:30). with a number of the flight EU, to create the position of a dome, and in this dome ... we release fields within the environment, that it becomes food for people, energy transfer. At same time .. create a fields, which becomes pain killer or anti-inflammatory. These are not anymore, might be, these are in the EU. All we do is allow the extension of, yes we can help .. in disasters. We can even help in forest fires, if they are accidental, but not when they are naturally, nature progress every year every ?? We can allow the hurricanes take shape from the West coast of Africa to East coast of US, but we should be able to have the knowledge, that on approach to say to Florida, we can create such a dome to divert it back into the sea. That we don't see the huge damages, we see nowadays inland. But again, these inland changes (are) needed, that is how this earth does it. (2:32). The same process can be used to create life, or sustain life in the space. We have not even started the process of the space and uses of the knowledge of the U.

Any other question.

R: .. first systems to be used for that kind of thing, but not military ..?

K- We have no more use for military, there is no need for military. This is how we explained. We deliver these T so rapidly, the governments won't even think of military because they all have it.

R: What about other agencies .. Coast Guard for example ... checking for drug smugglers would that be an application for this T?

K- Yes, we can do. Actually, in the narcotic side there is a huge development we can apply. You go to realize, I used to work with security service, (2:34). in narcotics for years. I am aware of this menace. We used to see, and scratch our head, in how genius these people become in different ways of trafficking. I used to be part of the .. the end execution part of it, to get rid of the materials for the British government for years. The ingenuity of these people how they come .. it was donuts, have sugar coated .. cocaine coated the donuts. ..

But with this T we can stop the growth at the source. There are ways that we can stop even the plant to grow. You don't even need to go to the process of the harvesting it, processing it, and then pulling it up. It's very easy for elements, which are harmful to man to be stopped at the source. (2:36). If you understand how to use it. Very much like, ?? ?? has been the source of British monarchy income by selling drugs, growing and selling it. Nobody could stop it because it was financed supported by the Queen. What we've seen in the past 20 years, all the problems in Afghanistan is not in ?? because British grows so much, that all incomes is assets of the Queen. Whatever drugs sold in Middle east, finds its percentage in the royal family pockets somewhere. We know this, and it is well recorded. We can stop the growth of these poppies at its source. Then you don't need to. The only poppy that will be damaged, is the pocket of the Queen of England, royal family. There will be no traffickers. There'll be no addicts, because there's no traffickers to deliver. These are all, and it (only) takes a few thousand dollars investment in the new T to do it.

Any other question.

Q: Stephanie, .. (2:38). .. you drew the 4 space craft, it always remind me of .. in Mozhans, that we could do this as well, as us, as 4 people, .. you said that 4 of us could stop a meteorite or something, if we would have gone on the edge of the earth, and make M fields around the earth. Could you go more, deepen that, man can do that, because we are spacecraft too?

K- We are energy sources, but it is how do we tune to each other. It's just like a chorus of 4 people singing. We tune our voice to each other, to be as one, and effective. If we learn to tune the strength of our souls, then we can do the same. It's very easy. Many, many races in the space, they never have a craft, they create the conditions of the fields, and they travel as families, as a group. There is no limitation, it's just the man doesn't have the knowledge. That's all.

Q: .. you said to us to see if we can meet up in a dream. When you wanted to make us connect maybe. You said, if in the dream I meet the other Mozhan, (2:40). I can recognize the T-shirt, like the color, and they can recognize my one. Then the next day we wake up, and say you had a yellow T-shirt on. And I said, yes, you had the blue shoes. Yes. So that means we met up. So that's something we can practice, all of us. To meet up in the dream, to increase this connection. Which is the way for us to connect between us?

K- Detachment. You are very attached, you want to see the red shoe, but you are not interested to see the STM, who carried the red shoe. So you are still physically attached. And that's the problem, part. This is what will grab man for a long time, to be stuck to this planet. Try to see the color of the STM, and not the color of the shoe of the man, and then you'll understand.

Q: Yes, definitely you are super right about not being able to detach. There is this fear, that definitely, is an issue for me, because lack of trust, fear is lack of trust?

K- It all depends, each one of us has that problem different. This is the problem, which all of us has, but we have to find, we have to see what is our problem. (2:42).

R: .. May we be taught the teaching of the Mozhan?

K- What does that mean?

R: .. are you going to teach another Mozhan class?

K- I don't have the time. That was a special time and place we did we brought. If you look at the Mozhan go back 6 years before. I took 7 students to teach in the Insanno, and I put 2 years of my life to teach them. They could not, some did not understand, and some could not understand, and became murders, and some became associated with murders. The same thing we had with Mozhans. I allocated 12 weeks, and we saw some went, and some stayed. The Mozhan still have another part of the teaching to be completed, but we have to go through this course before they complete that other part. I don't get times like this to do. At the moment the commitment to flight, and especially to take man into space ...

All these systems you see have to be synchronized, brought in to used correctly and perfectly with the flight system . (2:44). We can't have a system where we take you 3 days to Mars

Any other question

Q: .. from Macedonia .. in the Bible St. Paul had a dream to go to Macedonia to spread Christianity I would like you to come to Macedonia to spread your teachings ..

I believe in your T.

K- ... Never had the privilege of being in Macedonia ... but on the soul of Macedonia, (2:46). at the border of Bulgaria years ago. Our teaching reaches everyone, it doesn't matter who, where, and how. What we see and how we do things ...

how deeply the religion is. As we were cutting the rope for opening of the center .. we had many religious leaders standing there with their special hats and everything., to bless the opening, and I realized how religious the nation is.

Thank you

My connections with the governments goes long before KF. long before even KF was established . I used to do a lot of things like this

(2:48). and know how to work with governments, it's not just a random something.

K- Please keep on teaching unconditionally, and hopefully everything else will do its job
